

Lap is an innovative Smart Electric Heater Collection controlled by your mobile device. A simple oversized circular ring containing different finished frontal coverings brings to your space special artistic touch.

You have the freedom to place Lap in different ambients, and depending on surface finishing, Lap will reflect your surrounding or become a powerful oversize geometrical presence and sign. By choosing between three Lap dimensions and several finishings and materials you can approach your contract or domestic space with different styles, allowing you to underline Lap's graphic presence or ability to blend within the interior due to its reflections.
